SUMMARY

A B.E Computer Science Student proficient in C, Java, Python, and JavaScript, with expertise in web development, User Interface design (UI/UX) and distributed technologies. Skilled in HTML, CSS, and tools like GitHub. Seeking opportunities to contribute to innovative projects in the software development industry.

EDUCATION

Bachelor of Engineering –Computer Science & Engineering 2023-2026 CGPA: 7
Mangalore Institute of Technology & Engineering, Karnataka

Diploma 2019-2022 Percentage:63.64
Sanjay memorial polytechnic college sagara, Karnataka

Secondary School (SSLC) 2018-2019 Percentage:.68.68
MMDMRS high school shivmogga, Karnataka

SKILLS

Programming Languages : Java, C, Python.
Web Technologies : HTML, CSS, Bootstrap
Databases : MySQL, NoSQL.
Cloud & Networking : AWS, Computer Networks.
Operating Systems : Linux, Windows.

PROJECTS

Farmers management system **October 2024-February 2025**
Technologies:Python,flask &MYSQL
Built a Farmers Management System using Python Flask and MySQL for managing farmer data, crops, and transactions. Implemented secure login and dashboards for efficient record-keeping and sales tracking.

February 2025-January **February 2025-January 2026**
Technologies : NLP and Web portal, AI and Data analytics technologies
Developed an AI-powered Document Reconstructor using NLP and data analytics to restore, organize, and reconstruct unstructured documents efficiently.

HR Management System **January 2026 - May 2026 Technologies:**
HTML, CSS, Bootstrap, Laravel, MySQL
Built an HR Management System for managing employee records, attendance, and payroll.
Implemented secure login, dashboards, and reporting features.

INTERNSHIP EXPERIENCE

Udupi Web Solutions — Intern
January 2026 – May 2026 | Udupi, Karnataka

- Assisted in developing and maintaining web applications using HTML, CSS, and JavaScript.
- Built responsive user interfaces and supported testing, debugging, and database integration.
- Contributed to project documentation and requirement analysis.

COURSES AND WORKSHOP

- Introduction to Java programming
- Artificial intelligence and data science.
- Basics of data structures and algorithms

- Attended a workshop related to cybersecurity
